Silver certificates were 604@614c; bar sil don bar silver was 27%d per ounce. The principal interest in yesterday's stock market centered in Sugar, Third-avenue and Burlington. The rest of the market gave evidence of some disappointment over the noneffect of the currency and retime by the strength of the three stocks mentioned and some others less promi-Burlington was most consistently and gave evidence of manipulation said to be by a pool formed to advance the on the other grangers, but served as a tonic on the whole of the railwere inclined to firmness on the confidence expressed by trade publications in the maintenance of prices. Third-avenue was feverish and active all day. Its strength was attributed by many to operations against a large outstanding short interest, and the stock advanced at one time above 70, compared with 59 on a drive at the opening. The violent fluctuations in the price reflected the doubtful and conflicting opinions of speculators in the stock. It closed with a net gain of 2%c. Sugar was not so erratic and did not move over so vast a range, but its extreme rise of after an opening decline, gave way to practically unchanged. There was a de ided inclination to throw over stocks by the tired holders in the late transactions, and the closing was quite active and weak, the earlier gains, except in a few cases being wiped out. Reading first preferred fell sharply, nearly 2 points, on the reports by trade authorities of softness in the anthracite market. People's Gas was also conspicuous in the late break. The general expectation of a poor bank statement was the underlying motive for the selling. The rate for call loans was, however, rather easier than Wednesday under the influence of dividend disbursements. The prevailing

and which the statement of the Bank of England shows no prospects of opening in the immediate future. Business in bonds continued on a large scale, but prices yielded in some portions of the list. Total sales at par value were 1.820,000. United States twos and new fours declined 1/2, and the old fours and fives 1/4 in the bid price. Following are the day's share sales and

the closing bid prices:

market there, which are called stringent,

rate was 5 per cent., and loans were made

at 4 per cent. New York exchange at Chi-

cago hardened sharply to 10c discount

compared with 25c Wednesday, and there

was a similar movement at other points

But the subtreasury made another large

draft on the cash resources of the banks,

bringing its total withdrawals for the

week, thus far, up to \$4,273,000. As the sur-

plus last Saturday was below \$6,000,000 and

he currency movement is generally be-

lieved to have been in favor of the inter-

or since then, while the loans of the

banks have evidently been further expand-

ed, it is difficult to believe that anything

will be saved in the way of a surplus for

the banks this week. The report of a de-

ficit is bound to have an unfavorable sen-

timental effect on prices, however, and

some relief may be forthcoming from new

DELAGOA BAY CASE.

Western millet, 80@90c; common millet, 70@80c

Cause of the Long Delay.

LONDON, March 15.-Relative to the delay in regard to the Delagoa Bay Railroad award, the Pall Mall Gazette this evening says it is authoritatively informed that John G. Leishman, the United States minister to Switzerland, in addition to persistent unofficial representations, had addressed, on instructions from the State Department, a strongly worded official protest to the federal government, a reply to which was received Feb. 13. In this communication the secretary of the tribunal said the arbitrators had arrived at a decision, and the printed judgment would be in the hands of the litigants probably within four, and certainly within eight weeks from that date.

WASHINGTON, March 15.-It is learned that Mr. Leishman, our minister at Berne. informed the State Department, under date of Feb. 1, that the federal government had notified him that the record of the arbitration excluding reference to the land-grant claims would be ready for submission at the end of six weeks from that date. The land-grant issue had been delayed owing to some question raised by the claimants themselves as to the accuracy of the appraised value of the lands. This will necessitate another appraisement, which will consume much time. It does not appear that the decision in this case has been intentionally delayed, but it is said that the magnitude of the claims, amounting to jurists who had been named as the arbitraters, and consequently they surrounded their proceedings with so many and such excessive precautions and forms as to waste much time, the period consumed up to date being about nine years. It is said that the Swiss government is not responsible for this delay, having merely consented to appoint the arbitrators nine years ago and leaving the issues entirely to

WHEAT AND CORN DECLINED FRAC-TIONALLY ON BIG SALES.

Foreign News Was Also an Influence -Oats Were Unchanged and Provisions but a Shade Lower.

CHICAGO, March 15 .- Both wheat and corn took a step in the wrong direction today, wheat closing 1/4c lower and corn at a decline of %c. Wheat scalpers sold in anticipation of heavy Argentine shipments and light clearances, and the weakness of corn also depressed the market. The decline in corn was due mainly to influential liquidation. Oats closed unchanged, and provisions unchanged to 5c lower.

The early trading in wheat was not

marked by any degree of activity or any

marked tone. The opening for May was at 66%@66%c, a decline of 1/6%c from yesterday, the slight loss being due in part to disappointment over the reluctant response of the Liverpool market to yesterday's advance here. The loss was recovered almost immediately, May advancing to 66%c under covering by local shorts, but before 11 o'clock weakness again developed and kept prices on the down grade for nearly an hour. During this part of the session the foreign demand for American wheat was reported poor, while expectations of heavy Argentine wheat shipments to-morrow, a teature which has knocked good fractions off of the price of wheat for three successive Fridays, resulted in considerable short selling, the theory being that to-morrow's cpening would show a decline. About noon, however, the market turned quite strong on rumors of crop damage, and the price, which had in the mean time fallen off to about 661/2@66%c, advanced to 67c. But this was the price that heavy holders had apparently been waiting for, and offerings ecame so heavy that 1/4c was knocked off May figures in a hurry. At 66%c a good demand existed, and the market held steady at around that figure for some time, reports of a good demand for export at outside shipping points having considerable influence. Shortly before the close, however, realizing sales and uneasiness over the weakness shown by corn caused last four minutes' trading was one of weakness. May eased off to 66%c and closed at 661/2c. Chicago receipts were thirty-six cars. Northwest receipts were 562 cars, compared with 524 last week and 279 a year ago. Total primary receipts were 590,000 bu. Atlantic port clearances amounted to only

250,000 bu. Corn was only moderately active. Early in the session there were indications that influential holders were disposing of their lines of May, and buying July, and this resulted in considerable liquidation and short selling. The belief that a reaction was due augmented the selling movement. Heavy clearance had a steadying influence later, early sellers turning buyers, but toward the close the market again developed a tendency to decline, and the close was rather easy. Receipts were 367 cars. May ranged from 374c to 37%c, and closed %c lower at 374@37%c.

Trading in oats was almost without feaure, and was on a small scale all day. This, in fact, was the principal depressing feature. A report of 50,000 bu being engaged for export created a languid interest late in the day, but had little effect on prices. Receipts were 210 cars. May ranged from 23%c to 24c, and closed unchanged at

Provisions were moderately active and rather irregular, within a small range. Packers were fair sellers, but pit traders showed a disposition to cover short sales, which, with some commission house buying, kept the market fairly steady most of the session. At the close May pork was 5c lower at \$10.971/2; May lard a shade lower at \$6@6.021/2, and May ribs unchanged at \$6@6.0214 Estimated receipts Friday: Wheat, 63 cars; corn, 435 cars, oats, 270 cars; hogs, 25,000 head

Horses.

UNION STOCKYARDS, INDIANAPOLIS March 15.-About 300 head of horses were offered in the closing auction sale of the week to-day, making a total of approximately 900 head on the market this week, | bulls steady at \$3.20@3.70. or an increase of about 300 over last week and 250 over the corresponding week a year ago. The offerings to-day were for the most part the same class of horses that have week, and the quality was just as satisfactory. Buyers who had unfilled orders. and some that were partially filled, were very industrious when the market opened. and the early trade was characterized by active bidding, resulting in prompt sales at firm prices. A feature of the trade this week has been the continued and, in fact, increased urgent orders for 1.200 to 1.400 Sheep—Receipts, 3,600. Demand continues to the continues to the continues of the trade this Hogs—Receipts, 14,000. Market active an steady to 2% higher. Heavy, \$4.8004.95; mixed \$4.75@4.85; light, \$4.50@4.75; pigs. \$4.20@4.95. increased urgent orders for 1,200 to 1,400 pound horses, and also for a good class of light horses for the Southern trade, all of which sold at a slight advance in prices over last week. There was also rather a better inquiry for export for good heavy sales aid not show any improvement in 2.85; and new buyers were on the market this this place in the norse business is being
